

2022 Coding & Payment Quick Reference

The LiNA OperåScope® Single-Use Operative Hysteroscopy System is intended for use in visualization of the cervical canal and uterine cavity during diagnostic and therapeutic gynecological procedures. This guide provides applicable coding information to assist you and your facility in obtaining reimbursement for LiNA OperåScope® procedures.

LiNA OperåScope® Single-Use Operative Hysteroscopy System

Information contained in this coding and payment guide is derived from a variety of public sources as of January 2022 and is intended for illustrative purposes only. Payment varies by geographic location, coverage and payer and should be verified prior to treatment for limitations on diagnosis, coding, or site of service requirements. LiNA Medical does not warrant or guarantee that the use of this information will result in coverage or payment. It is not intended to increase or maximize reimbursement by any payer. Providers assume full responsibility for all claims submissions and reimbursement decisions. It is always the provider's responsibility to determine medical necessity, the proper site for delivery of any services and to submit appropriate codes, charges, and modifiers for services that are rendered. The codes listed in the guide are potential codes that may be appropriate for individual situations and are not intended to be an all-inclusive list. LiNA Medical recommends consulting with your payers, reimbursement specialists and/or legal counsel regarding coding, coverage, and reimbursement matters.
